

# HAND SEWING HAPPY HOURS

VIOLET CRAFT

Hosting a guild happy hour is a great way to build community within your guild. Here are some tips.

- Happy hours can bring people together in smaller events to create comraderie and friendships.
- People can work on a project in their lap and get to know other guild members.
- Rotate your locations around the city so that you can benefit your members everywhere in your city.
- Great places to meet could be coffee shops, tap rooms, or even the cafe area of your local grocery store.
- If you have a large guild, plan for 10-15 people to attend.
- Don't discriminate on hand projects, it could be modern or not, quilting or knitting, really anything that fits in your lap.
- Have a host for each happy hour to be the point person to organize and for people to get info from
