

# QUILT DOODLING

SAMARRA KHAJA

- Use any weight thread and stitch length you like; thicker will be bolder and more obvious; thinner will be more delicate. Consider mixing and matching weights for more visual range.
- Especially if your project is double-sided, consider using a different colored thread in your bobbin for another look on the opposite side. This is a great way to use up extra bits of thread you have!
- Remember, if you don't feel comfortable with free-motion quilting, you can achieve the same result with standard straight stitching!
- Quilt Doodling serves both a functional and cosmetic purpose on a quilt sandwich, so keep that in mind and combine the two whenever possible. //i.e. Be thoughtful about evening distributing your doodle-stitching so the piece is evenly tacked down. It will make for less purely-functional stitching later.
- Remember to have fun and keep practicing!
