

GRID TEXTURES

CHRISTINA CAMELI

- This technique uses a walking quilting foot and a free-motion foot.
- To begin with, make a grid with your walking foot. In my grid the lines were 2" apart going both vertically and horizontally.
- Once your grid is established, switch to your free motion foot and lower your feed dogs. Now you can fill in the grid however you like.
- You can fill in every other grid space with dense back and forth matchstick quilting to get a checkerboard effect.
- You can fill in the grid spaces with tight spirals, or circles.
- There are a ton of other possibilities too: experiment!!
