

PLAYING WITH STRING BLOCKS WITH BRENDA RATLIFF

- When you make string blocks, you can use them on their own or make them into other blocks.
- Make your strips a little longer than you need to make more than one block at a time or to trim down for accuracy!
- Pins are optional.
- When using this technique in an improv quilt, you don't have to be as exact on your sewing.
- Use up scraps to make the string segments!
- Use the string segment just as you would a regular piece of fabric to assemble your HSTs!
